Cal/EPA Secretary Alan C. Lloyd Commends Governor for Signing Clean Diesel Bill

(SACRAMENTO) – California Environmental Protection Agency (Cal/EPA) Secretary Alan C. Lloyd, Ph.D., released the following statement today after Governor Arnold Schwarzenegger signed AB 679:

"AB 679 requires the Air Resources Board to establish testing protocols for California clean diesel and confirm its emission reduction benefits. Additionally, this provides an opportunity for California to partner with private entities and foundations to test other fuels, such as biodiesel, to help the state learn more about emissions from these emerging fuels."
